## DOSING SYSTEM

A 1 litre bottle of DISTEL DOSING SYSTEM concentrate solution generates 2000 measured doses of surface disinfectant. With the DISTEL DOSING SYSTEM every dose is the same volume as the previous one.

The DISTEL DOSING SYSTEM is intended for the cleaning and disinfection of surfaces of non-invasive medical devices and equipment, and of hard non-porous environmental surfaces.

The DISTEL DOSING SYSTEM working solution is effective against coronaviruses in 2 minutes. Efficacy is also proven against bacteria, yeasts, enveloped viruses and nucleic acids (DNA/RNA)\*

\*Please see the microbiological efficacy summary for specific contact times.

The DISTEL DOSING SYSTEM is CE marked as a Class IIa Medical Device.  
\*Dose onto a new wipe. For full instructions please see the DISTEL DOSING SYSTEM User Guide.

Designed to be repurposed and reused, the DISTEL DOSING SYSTEM bottles keep the environment in mind.

A 1 litre bottle of DISTEL DOSING SYSTEM concentrate delivers 10 x 1 litre bottles of working solution which equates to 200 x 5ml doses per bottle.

The DISTEL DOSING SYSTEM can be used with any wipe to create freshly made surface disinfectant wipes on the go. Choose a sustainably sourced wipe to reduce single-use plastic waste.

MANUFACTURED IN THE UK

REUSABLE BOTTLES

DESTROY CORONAVIRUSES IN 2 MINUTES

**THE DISTEL DOSING SYSTEM IS INTENDED FOR THE CLEANING AND DISINFECTION OF SURFACES OF NON-INVASIVE MEDICAL DEVICES AND EQUIPMENT, AND OF HARD NON-POROUS ENVIRONMENTAL SURFACES SUCH AS:**

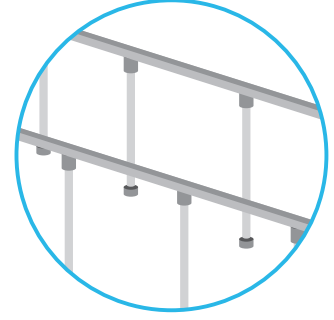

**WORKSTATIONS  
(MONITORS  
& KEYBOARDS)**

**TROLLEYS  
(I.E. SMALL EQUIPMENT  
& RESUSCITATION)**

**HOISTS**

**HANDRAILS**

**A MEASURED 5ML DOSE  
EVERY TIME**

The DISTEL DOSING SYSTEM heads make certain that each fresh dose of surface disinfectant is the same volume. Simply invert the dosing bottle once to prime and a second time to apply 5ml of surface disinfectant.

Each dose is consistent, resulting in uniform disinfection for increased compliance.

Training and certification is an essential part of customer service with Cache. Ask about our [Online Training Portal](#) for product training at a time and place convenient to you.
