

THE WORLD'S MOST WIDELY APPROVED, VALIDATED AND USED HIGH-LEVEL DISINFECTION WIPES SYSTEM

For heat-sensitive, non-lumened medical devices, such as:

- Nasendoscopes
- Transvaginal and transrectal ultrasound probes
- Transoesophageal echocardiogram (TOE) probes
- Laryngoscopes
- Manometry catheters
- Ophthalmic devices

**DESTROYS HPV
IN 30 SECONDS***

*Meyers, C., Milici, J., Robison, R. (2020) 'The Ability of Two Chlorine Dioxide Chemistries to Inactivate Human Papillomavirus-contaminated Endocavitary Ultrasound Probes and Nasendoscopes' DOI: 10.1002/jmv.25666.

THE TRISTEL TRIO WIPES SYSTEM IS EASY TO USE!

HIGH-LEVEL DISINFECT Tristel Sporidical Wipe

This wipe combined with the Tristel Activator Foam generates chlorine dioxide, a highly effective biocide that delivers high-level disinfection in a uniform contact time of 30 seconds.

RINSE Tristel Rinse Wipe

A sterile packed, non-woven wipe impregnated with deionised water and low antioxidant content. The wipe is used to remove any remaining chemical residues from the surface of the medical device.

TRACE Tristel 3T or the Quality Audit Trail Record Book

Two traceability options for the simple registration of all steps of the process, including validation by the responsible person.

Tristel Trio™
Wipes System

UNRIVALLED EFFICACY

The Tristel Sporidical Wipe is proven effective as a high-level disinfectant according to BS EN 14885 and the latest efficacy standards published, in 30 seconds. The product's fast-acting and uniform contact time leaves no room for doubt or error.

FLEXIBLE

The Tristel Trio Wipes System is a mobile solution which can either be used in the consultation or decontamination room. Its flexibility eliminates the need for the instrument to be sent to central sterilisation units for reprocessing, saving valuable time.

COMPATIBLE

The Tristel Trio Wipes System has been tested and confirmed to be compatible with medical devices from over 40 manufacturers, including:

- Advanced Tactile Imaging, Inc.
- Airtraq*
- Arthrex
- ATMOS MedizinTechnik
- BD (Bard Access, CareFusion)
- BK Medical
- Butterfly Network
- Canon Medical Systems
- Carestream
- Clarius Mobile Health
- Clarus Medical
- DWL Compumedics
- Echosens
- Esaote*
- Exact Imaging
- Fisher & Paykel
- Fujifilm (Hitachi)
- FUJIFILM SonoSite
- GE Healthcare
- Haag-Streit
- Karl Storz
- Laborie
- Machida Endoscope Co.
- MCube
- Medcom
- Mindray
- Neoplas Tools
- Ocular Instruments Inc
- Optim LLC
- Orlvision
- Pentax
- Philips
- Polydiagnost
- Samsung Healthcare
- SapiMed
- Siemens Healthineers
- Southern Scientific / Care Wise
- tic Medizintechnik
- SonoScape*
- Verathon
- Xion Medical

*Compatible with the Tristel Sporidical Wipe as part of the Tristel Trio Wipes System

FAST

Full decontamination cycle, including traceability, in a matter of minutes.

ECONOMICAL

No investment required in machines and maintenance contracts.

SMART TRACEABILITY

The Tristel Trio Wipes System includes either paper-based or digital traceability. The widely-used Quality Audit Trail Record Book documents each disinfection event with pen and paper. Tristel 3T digitalises this process for a more efficient, accurate and smart approach to traceability.

SAFE

The Tristel Sporidical Wipe is non-toxic to embryos and can therefore be used in IVF environments.

The Tristel Trio Wipes System offers complete decontamination of heat-sensitive, non-lumened medical devices. Thanks to the concept of cleaning, high-level disinfection and rinsing, a validated result is achieved with a simple and fast three-step process.

Microbiological test reports

	European norms (EN)	Uniform Contact Time
Bacteria	EN 13727	
	EN 14561

TRISTEL TRIO WIPES SYSTEM

- 1 box contains 50 decontamination procedures, available with or without the Quality Audit Trail Record Book.
- Tristel 3T is sold separately.

More information about the Tristel Trio Wipes System, such as safety data sheets, reports, publications on materials and studies, is available on request or online at www.tristel.com

MEDICAL DEVICE TRANSPORTATION

Tristel Protect bags are designed specifically for the transportation and short-term storage of medical devices, with traceability in mind.

TRISTEL PROTECT

- 50 bags per box.
- Available in small (21cm x 34cm) for laryngoscopes and large (31cm x 71cm) for nasendoscopes.
